## Catch The Vision

## Founder and CEO of Celebrate Life International

Dr. Lori Salierno is one of just a handful of speakers who has the ability to take you from “where you are” to “where you want to be” in 45 minutes or less. Her powerful communication skills are seldom seen in popular speakers today. That is why event planners around the U.S. and other international locations call on her when they need a superb message delivered by a master communicator. Audiences can never get enough when Lori speaks, as evidenced by the long lines of people waiting for an hour or more for a chance to speak with her after her presentations. Her portfolio includes annual conventions, women’s retreats, corporations, business associations, and the U.S. military.

Lori is also an avid spokesperson for the cause of transforming at-risk kids into the positive and productive young people they were created to be. Through her successful non-profit organization, she is making a difference in the lives of at-risk youth. She is also co-creator of the innovative *Teach One to Lead One*® philosophy, a life-changing approach that equips parents and youth to live life in a productive and meaningful way.

Either as a speaker or as a CEO, Lori has taken her powerful message of transformation and renewal to a wide variety of people and institutions such as Focus on the Family, the U.S. Air Force, and the White House. If you want to turn up the volume and increase the effectiveness of your event, Dr. Lori Salierno is your best option.
